

REMARKS

Applicants have cancelled pending claims 1-75 and added new claims 76-80. Support for the new claims is found in the application and original claims as previously provided. Specifically, support for new claim 76 is the same as previously cited for new claim 70 in addition to that in the application on p. 17, line 33 through p. 18, line 2 (...EBs were plated ... as single cells dissociated with trypsin/EDTA...). Support for new claims 77-80 are found in the application, and in original claims 9 (77), 11 (78), 13 (79), 14 (80), and 15 (81).

In view of the arguments and amendments presented in previous responses and the current new claims, Applicant respectfully submits that all pending claims are now in condition for allowance. Reconsideration of the claims and a notice of allowance are therefore respectfully requested.

Applicant believes that an additional month extension fee (from two-month to three-month) may be required for submission of this supplemental response, and hereby petitions for such an extension of time. Applicant also requests that the additional one-month extension fee (if owed) be charged to deposit account number 19-4972, along with the \$395 owed for the Request for Continued Examination. However, in the event that any additional fees are owed, please charge any fees required for the timely consideration of this application to deposit account number 19-4972.
